

SAMPLE TEMPLATE

25'x 25' FLEX COURT™ Basketball Court

(Concrete Pad Size = 25'-8" x 25'-10")

Basketball Backboard Typical 4' Overhang

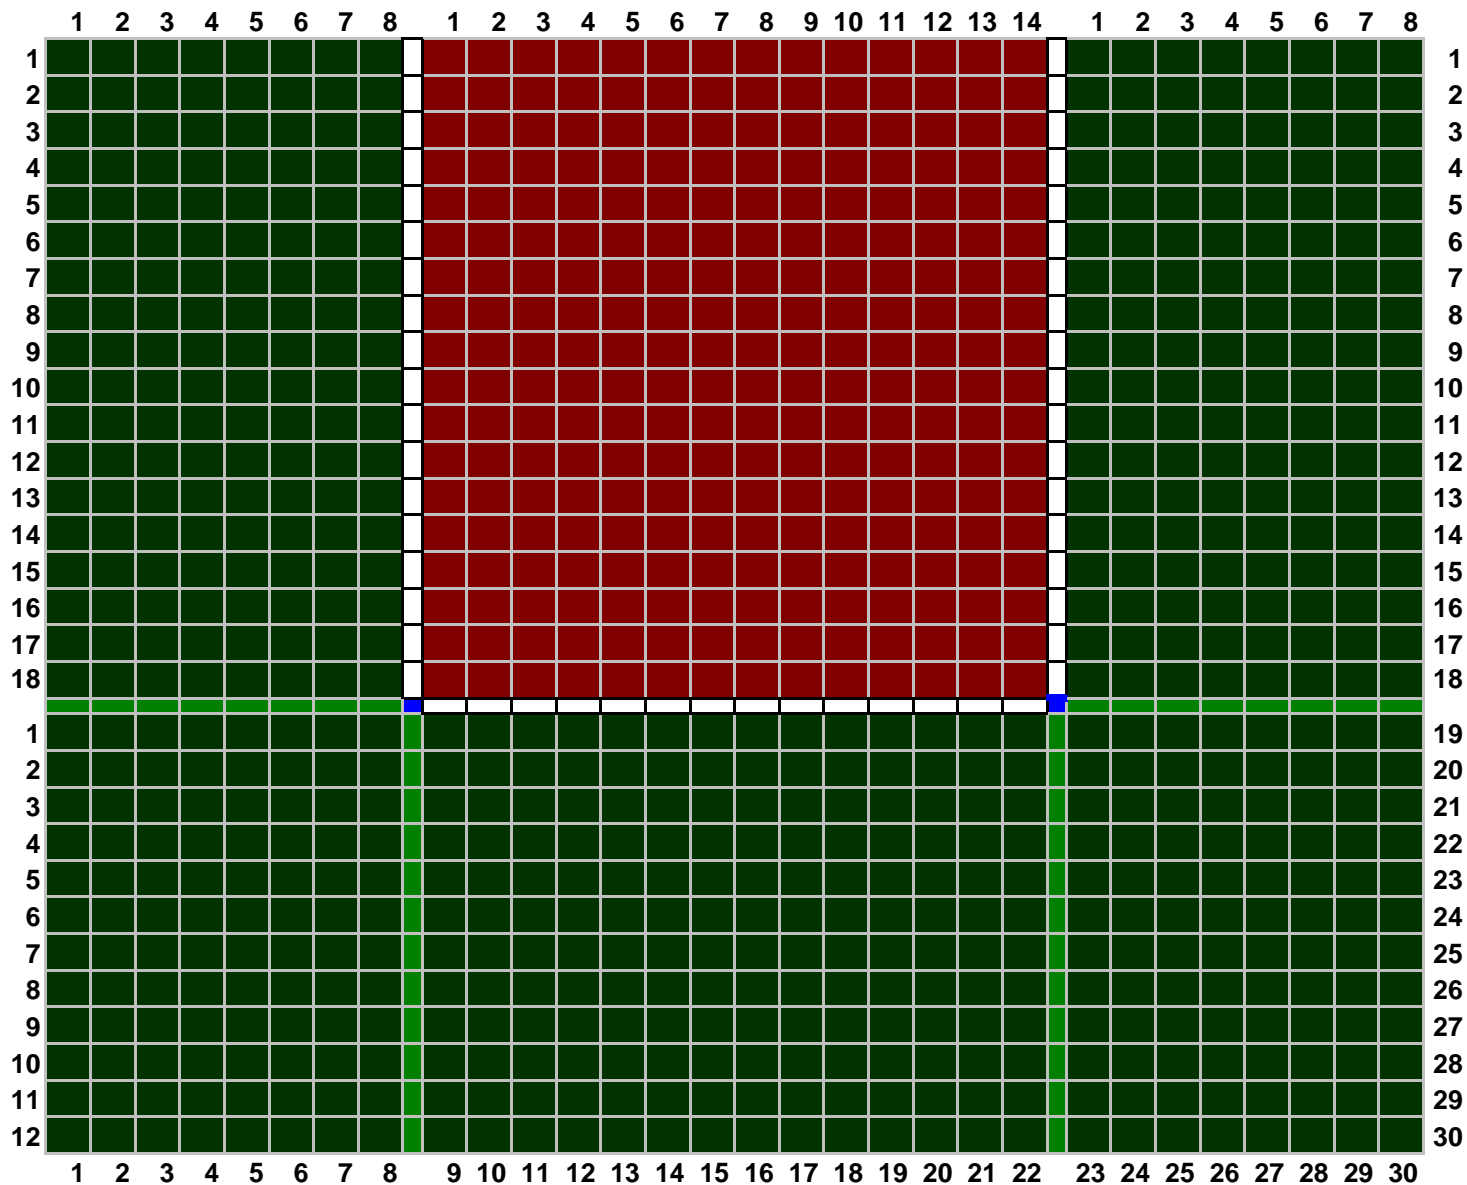

Recommended Key Size: 12' x 15'

Basketball Key = 252 Tiles

Court Surface = 648 Tiles

2" Inlaid Lines for Key = 50 Lines + 40 Filler Lines

INSTALL GRID

Take a look at the **INSTALL GRID** above and compare it to the 25' x 25' **SAMPLE TEMPLATE**. Even if the template that has been prepared for your court doesn't match the 25'x25' **SAMPLE TEMPLATE** this will help you determine how to install your court. The white lines represent 2"x10" white line tiles, the light green lines represent 2"x 10" dark green filler line tiles (these lines above are colored light green so they won't blend in so you can see them, your filler lines will match your main court color). The 2 small blue squares located to the left and right of the foul lines are empty slots and must be filled by cutting a 2" square piece off of a 2"x10" white line tile. To do this flip the 2"x10" line tile over you'll note that one side of the tile will have a lug located exactly at the 2" mark, cut the tile at this point with a sharp razor knife and insert it into the empty slot. Start by laying tiles working from one side of the court towards the other and follow the template.
